

A study about the feasibility of new regional transit service in West Michigan is underway. Planners are examining the demand for new commuter and intercity bus services connecting communities in Ottawa, Kent and Muskegon Counties. The study will help determine whether new services are feasible, and if so, how they should be developed.

As part of this study, a survey has been created to understand where people travel in West Michigan and to gather public opinion about possible regional bus routes.

Because this is an important effort, I'm asking you to please take 5-7 minutes to complete the survey on-line at [www.westmichigantransitsurvey.info](http://www.westmichigantransitsurvey.info). As an incentive, individuals who complete the survey will be entered in a drawing to receive one of several \$25 gift cards.
